

JMP Quality Policy Statement

John Moffat Prolock (Pty) Ltd (JMP) is a diversified cutter and converter of industrial, mining and automotive products that meets the evolving needs of our customer base. Quality is not just another goal for JMP, it is our basic strategy for survival and future growth.

Senior Management of JMP will always ensure high quality standards by using the best manufacturing processes in all our activities. In order to reinforce this philosophy, JMP has implemented a Total Quality Management System that is based on the ISO 9001-2015 standard and risk based thinking approach. Our quality objective is to supply fit for purpose high quality products on time and at the lowest cost.

To achieve these goals and objectives, JMP commits to the following:

1. We are all accountable to our customers, both internal and external for the quality of our work and we are committed to perform to the best of our capabilities at all times.
2. Ensuring continuous improvement and innovation is a part of every activity we do on a daily basis through team participation and measurements
3. We consistently strive to improve our quality through learning, sharing, benchmarking, innovation and participation in continuous improvement projects.
4. Ensuring that our policy and procedure manuals reflect what we actually do.
5. To communicate our quality policy with our customers, suppliers, employees and relevant stakeholders.

This policy sets the basis to drive a quality culture of excellence, innovation and continuous improvement.
